POSSIBILITIES

See what matters. Instantly. In Full HD.

Smart camera for video
monitoring of any room

Shelly Camera

Smart indoor camera with Full HD video, night vision, privacy mode, and cloud-based AI object recognition.

EU-based
Cloud

Shelly's first smart camera combines intelligent detection, clear video monitoring, and privacy on your terms. Real-time alerts with image previews and cloud-based AI object recognition help users quickly understand what is happening and react without delay - at home or at work.

Full HD clarity

1080p video with a 110° horizontal and 70° vertical field of view.

Smarter detection

Configurable motion zones plus cloud-based AI object recognition.

Instant alerts

Real-time notifications with thumbnail previews in the Shelly Smart Control app.

Day and night

Optimized black-and-white night vision for low-light monitoring.

Privacy on demand

Privacy Mode and blackout zones help customers hide sensitive areas.

Flexible storage

EU-based Shelly cloud or microSD card (not included).

2-way communication

Built-in microphone and speaker.

Easy setup

Wi-Fi dual band or Bluetooth; no hub required.

Open integrations

Works with Home Assistant and major smart home platforms.

Ideal for everyday monitoring

Home, baby and pets

Check in on your baby or pet remotely. Gain immediate visibility on what matters most.

Entrances and garages

Keep an eye on your home while you are away.

Office and small business

Simple setup. Instant visual awareness of your commercial space or storage area.
